Professional Summary

Hi! I'm Massoud Kargar, a passionate Software Engineer specialized in backend development with the .NET ecosystem. I have over 5 years of experience designing and implementing scalable, distributed systems using .NET, Microservices, RabbitMQ, Kafka, and Redis.

I love clean code, clean architecture, and system optimization. My focus is always on building reliable, maintainable, and high-performance software solutions.

I'm also curious about Cloud technologies, DevOps, and cybersecurity, and I enjoy collaborating with teams that value learning, creativity, and growth.

Professional Experience

Software Developer (.NET)
Rasta Novin Aria, Tehran | May 2024 – Present
- Developed and maintained scalable backend services using .NET 8
- Implemented Clean Architecture and CQRS in enterprise projects
- Optimized API performance and logging with Serilog and ELK Stack

Senior Back-End Developer (.NET)
Setigh Faraafoq, Tehran | Nov 2023 – Apr 2024
- Designed microservices for HR and financial systems
- Improved database performance with SQL Server and EF Core
- Utilized RabbitMQ, Redis, and Kafka for messaging

Senior Back-End Developer (.NET)
Freelancer | Aug 2023 – Nov 2023
- Developed decentralized Web3-based systems
- Designed and secured RESTful APIs with JWT authentication

Back-End Developer
Behineh Kavan Keyfiat, Tehran | Jul 2021 – Jul 2023
- Built enterprise software with .NET Core and Blazor
- Created internal APIs and reporting modules

Back-End Developer
Freelancer | Apr 2020 – Jul 2021
- Developed lightweight backend services for internal apps
- Managed SQL Server, Redis, and Docker environments

Education & Certifications

- Diploma in Wood Industries
- Rust Bootcamp – Maktabkhoneh, 2024 (11 hours)
- ASP.NET MVC – Kando Danesh, 2019 (6 months)
- HTML5, CSS3, jQuery – Kando Danesh, 2019

Technical Skills

- **Backend:** .NET Core, C#, EF Core, Dapper, REST API, CQRS, Clean Architecture
- **Messaging:** RabbitMQ, Kafka, Redis, EMQX
- **Database:** SQL Server, PostgreSQL
- **DevOps:** Docker, Kubernetes, ELK Stack, Quartz
- **Others:** Git, Microservices, Blazor, Web3, Rust

Languages

- Persian: Native
- English: Upper Intermediate
