

Masoud Kargar

Senior .NET Backend Developer

Pakdasht, Tehran, Iran | 0991 202 1004 | massoudkargar.web@gmail.com
linkedin.com/in/masoudkargar | github.com/MassoudKargar | Military Service: Completed

PROFESSIONAL SUMMARY

Senior .NET Backend Developer with 6+ years of experience designing and building scalable, high-performance backend systems using .NET, C#, and relational databases. Specialized in microservices architecture, Clean Architecture, and CQRS, with a track record of improving system performance and stability through query optimization and API design — including an approximate 35% improvement in API/SQL performance on a production system. Experienced with message-driven architectures (RabbitMQ, Kafka) and modern authentication/authorization solutions (Keycloak, IdentityServer/Duende, JWT, OAuth2/OIDC). Passionate about building maintainable, testable, and highly scalable software.

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET 8 / ASP.NET Core, TypeScript, JavaScript, React, Blazor WebAssembly, .NET MAUI

Architecture & Design: Clean Architecture, CQRS, Microservices, RESTful API Design

Databases: SQL Server, T-SQL, PostgreSQL, MongoDB, MySQL, Redis

Messaging & Streaming: RabbitMQ, Apache Kafka, Quartz

Security & Identity: Keycloak, IdentityServer / Duende, JWT, OAuth2 / OIDC, CORS

DevOps & Infrastructure: Docker, Kubernetes, ELK Stack, Nginx, Linux (LPIC-1)

Tools & Other: Entity Framework, Dapper, Git, Web3.js

PROFESSIONAL EXPERIENCE

Senior .NET Backend Developer

Apr 2025 – May 2026

Rasta Novin Aria • Tehran, Iran

- Designed and developed backend services and RESTful APIs using .NET 8 as part of the core engineering team
- Improved SQL query and API performance by approximately 35% through targeted query optimization and architectural refinements
- Implemented distributed authentication and authorization strategies using Keycloak and JWT, strengthening security across services

Senior Backend Developer

Oct 2024 – Mar 2025

Setigh Fara Ofogh • Tehran, Iran

- Applied Clean Architecture principles to improve code maintainability, testability, and long-term scalability
- Led the migration of a monolithic application to a microservices-based architecture, improving deployment flexibility and resilience
- Implemented Keycloak-based authentication to secure inter-service and user-facing communication

Senior Backend Developer (Freelance)

Jul 2023 – Oct 2024

Self-Employed • Pakdasht, Iran

- Built multi-tenant APIs enabling multiple client organizations to operate securely on shared infrastructure
- Developed blockchain-based applications for client projects, applying Web3 technologies
- Designed and implemented scalable backend systems following modern architecture best practices

.NET Backend Developer

Jul 2021 – Jul 2023

Behineh Kavan Keyfiat • Tehran, Iran

- Contributed to the design, development, and maintenance of backend services and RESTful APIs using .NET and SQL Server

Back-End Developer (Freelance)

Mar 2020 – Jul 2021

Self-Employed • Tehran, Iran

- Delivered backend development services for client projects using .NET and SQL Server

EDUCATION

Diploma

CERTIFICATIONS & TRAINING

- Machine Learning with Python — Maktabkhooneh (2026)
- Microservice Architecture — Nikamooz, 70 hrs (2023)
- PRO .NET Ecosystem — Nikamooz, 110 hrs (2022)
- ASP.NET MVC — Cando Academy (2019)
- Programming Fundamentals — Cando Academy (2019)

LANGUAGES

Persian — Native | English — Upper Intermediate
